BIO

MAN1K is a Ukrainian witch house producer and DJ based in Europe. Since emerging in February 2023, he has built a presence defined by atmospheric productions - heavy reverb, processed vocals, and layered synthesis that operates in the emotional territory between dissociation and ritual tension. Formed between the underground of Eastern Ukraine and the club culture of Kumamoto, Japan, the project has performed across three countries and continues to expand the infrastructure of a scene that operates largely outside mainstream visibility.
